BLENDING CLINICAL FUNCTION AND AESTHETIC DESIGN

# LARGE OPENING ARTWORKS®

The Large Opening Artworks allows multiple medical gases and electrical services to be discretely hidden behind a moveable picture or panel. The picture or panel moves vertically to completely reveal the ergonomically placed medical gases and electrical services.

## Applications

- LDR/Post Partum
- Patient Rooms
- Outpatient Surgery Center

## Product Features

- ① 34" wide  
Frame slides vertically to give nurses immediate access to medical gases, electrical services and equipment management
- ② Custom designed to meet clinical and aesthetic needs
- ③ A built-in LED light automatically illuminates the interior when the artwork is raised to its open position
- ④ Requires a 10" stud wall
- ⑤ The Large Opening Artworks will contribute to any interior design scheme

## Clinical Benefits

- Immediate access to medical gases and electrical services while providing an attractive way to conceal the services
- Nurses can easily and quickly position all equipment
- Increased size offers additional flexibility and allows additional room for equipment and storage management

# RECESSED MOUNTED ARTWORKS®

The Recessed Mounted Artworks allows movement in 4 directions: up, down, horizontal and angular. Providing ergonomically placed medical gases, electrical services and equipment management, the Recessed Mounted Artworks will contribute to any interior design scheme.

## Applications

- LDR/Post Partum
- Patient Rooms
- Outpatient Surgery Center

## Product Features

- ① Custom designed to meet clinical and aesthetic needs
- ② Frame slides easily to give nurses immediate access to medical equipment
- ③ Available with 3 or 5 gas outlets
- ④ Available as single-sided to serve one patient room or double-sided to serve two adjacent rooms
- ⑤ The Recessed Mounted Artworks will contribute to any interior design scheme

## Clinical Benefits

- Immediate access to medical gases and electrical services while providing an attractive way to conceal the services
- Nurses can easily and quickly position all equipment
- Optional Deep Artworks®: Available in single-sided recessed mounted models, the Deep Artworks provides maximum storage capabilities. Built in with a six inch stud, this product has the capacity to store a vacuum bottle as well as other patient room needs.

# WHAT WE DO

Modular Services Company is a custom medical products design company with the ability to create, manufacture and service all of our unique products: Medical Headwalls, Fixed and Rotating Columns, Moveable Boom Systems, Critical Care Carts, Bed Dockers and more. With each of our products, we unite clinical function with innovative design to generate product solutions that increase productivity for the nursing staff, the architect and even the contractor. Ultimately, we help nurses provide care with greater efficiency. Modular Services Company is pioneering new territory in clinical design.

To view ArtWorks® CAD drawings, installation instructions and specifications, please visit [www.modularservices.com](http://www.modularservices.com).

## Optional Flush Mounted Design

Framed print moves vertically allowing easy access to medical gas outlets. Simply move the framed print to the open position and attach standard flowmeters or vacuum regulators. Remove flowmeters and regulators to return framed print to the closed position. Available with 3 or 5 gas outlets; single or double-sided.
