

Electrician II

FLSA Status: Non-Exempt, N1

EEO Group No.: 7

Job Title: Electrician II

Department: Production

Reports To: Department Lead

Summary:

This position entails the preparation for, and wiring of, hospital patient service systems. The assemblies are wired using parts drawings, supervisor instructions, visual samples, and a basic understanding of the National Electrical Code.

Essential Duties and Responsibilities:

- Work from drawings, sketches, sample parts and written/verbal work instructions to gather and prepare materials. This includes, but is not limited to:
 - Measure, cut and bend conduit
 - Measure, cut and strip wire
 - Organize remaining components such as receptacles, switches, conduit connectors, ground bars, etc.
- Wire service assemblies in accordance with customer specifications and supervisor instructions
- Test for continuity of circuits and integrity of connections
- Verify conformance of product with the appropriate standards and regulations, such as NFPA 70 (NEC) and NFPA 99
- Verify conformance of product with customer specifications
- Maintain a clean, safe work area
- Confer with other Electricians and/or supervisors to resolve any product or process problems
- Complete other tasks as directed by supervisors
- Follow all procedures and work instructions as documented by the Quality System.
- Report and/or document any Quality problems with products or procedures to supervisor or Quality personnel.
- Suggest improvements to product design and/or procedures/work instructions as needed.
- Comply with the Company's regular and timely attendance requirements.

Prerequisites and Qualifications for Position:

- High school diploma or equivalent
- One year experience in similar work environment
- Basic understanding of National Electrical Code requirements
- Good reading/writing skills
- Basic mathematical and computational skills
- Fluent in the English language

Physical Demands:

This position requires an individual in good-to-excellent physical condition, able to meet the following requirements:

- Work in a typical non air-conditioned shop/warehouse environment
- Lift up to 50 pounds and do so repetitively throughout the shift
- Perform repetitive motions such as bending, twisting, etc.
- Spend a majority of the shift standing
