LARGE OPENING ARTWORKS®

The Large Opening ArtWorks® allows multiple medical gases and electrical services to be discretely hidden behind a movable picture or panel. The picture or panel moves vertically to completely reveal the ergonomically placed medical gases and electrical services.

Applications

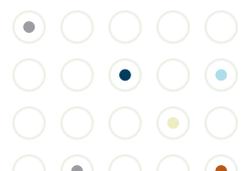

- LDR/Post Partum
- Patient Rooms
- Outpatient Surgery Center

Product Features

- ① 34" wide
- ② Frame slides vertically to give nurses immediate access to medical gases, electrical services and equipment management
- ③ Custom designed to meet clinical and aesthetic needs
- ④ A built-in LED light automatically illuminates the interior when the artwork is raised to its open position
- ⑤ Requires a 10" stud wall
- ⑥ The Large Opening ArtWorks® will contribute to any interior design scheme

Clinical Benefits

- Immediate access to medical gases and electrical services while providing an attractive way to conceal the services
- Nurses can easily and quickly position all equipment
- Increased size offers additional flexibility and allows additional room for equipment and storage management

RECESSED-MOUNTED ARTWORKS®

The Recessed-Mounted ArtWorks® allows movement in 4 directions: up, down, horizontal and angular. Providing ergonomically placed medical gases, electrical services and equipment management, the Recessed-Mounted ArtWorks® will contribute to any interior design scheme.

Applications

- LDR/Post Partum
- Patient Rooms
- Outpatient Surgery Center

Product Features

- ① Custom designed to meet clinical and aesthetic needs
- ② Frame slides easily to give nurses immediate access to medical equipment
- ③ Available with 3 or 5 gas outlets
- ④ Available as single-sided to serve one patient room or double-sided to serve two adjacent rooms
- ⑤ The Recessed Mounted ArtWorks® will contribute to any interior design scheme

Clinical Benefits

- Immediate access to medical gases and electrical services while providing an attractive way to conceal the services
- Nurses can easily and quickly position all equipment
- Optional Deep ArtWorks®: Available in single-sided recessed mounted models, the Deep ArtWorks® provides maximum storage capabilities. Built in with a six inch stud, this product has the capacity to store a vacuum bottle as well as other patient room needs.

WHAT WE DO

Modular Services Company is a medical products design company that creates and manufactures advanced prefabricated products: Medical Headwalls, Footwalls, Sinkwalls, Fixed/Rotating Columns, Movable Boom Systems and more. Our products are designed to be user-centric and meaningful. We strive to increase functionality for the clinical staff in the bedside environment. We offer smart, high design/aesthetic options for the design team and manufacture systems that make construction of the patient space both simple and efficient.

To view ArtWorks® drawings, installation manuals and specifications, please visit www.modularservices.com.

Optional Flush-Mounted Design

Framed print moves vertically allowing easy access to medical gas outlets. Simply move the framed print to the open position and attach standard flowmeters or vacuum regulators. Remove flowmeters and regulators to return framed print to the closed position. Available with 3 or 5 gas outlets; single or double-sided.
